## ABOUT THE BOOK

As a child I was fascinated by the Apollo Moon missions. As I got older the fascination never waned, until, approximately 15 years ago, I happened to watch a documentary on one of the Apollo missions. In that they discussed the method used for circumnavigating the Moon during the missions. As a trained pilot I remember questioning that method of navigation and from there I started to doubt the validity of the Apollo Moon missions itself, which led to subsequent years of research.

This book is culmination of that research and the reasons why I believe that the Apollo Moon missions were faked. Included in Part 1 of this series I discuss the following key factors:
